MOLD ARMOR
MOLD REMOVER & DISINFECTANT

INHIBITS THE GROWTH OF MOLD AND MILDEW
KILLS 99.9% OF FUNGAL BACTERIA AND VIRUSES
DESTROYS ODORS

One-step disinfectant, cleaner, sanitizer, fungicide, mildewstat and biocidal agent

INSTRUCTIONS FOR USE:

1. MOLD AND MILDEW CONTROL DIRECTIONS: This product will help control mold and mildew in both porous and non-porous materials. Pre-clean heavily soiled areas. Apply product to affected area with a coarse spray tip, before and after cleaning and extraction. Do not use on wool. Vacuum carpet thoroughly prior to cleaning. Test fabric for colorfastness. Do not mix this product with oxidizers, anionic soaps and detergents.

2. CARPETS, CARPET CUSHIONS AND OTHER POROUS MATERIALS SUCH AS SUB FLOORS, DRYWALL, TRIM AND FRAME LUMBER, TACKLESS STRIP AND PANELING: To rid affected area of odors caused by sewer backup and river flooding, saturate all affected areas with enough product to remain wet for at least 10 minutes. Use proper ventilation.

3. SPECIAL INSTRUCTIONS FOR CLEANING CARPET AGAINST ODOR CAUSED BY BACTERIA: Follow with a thorough extraction. Dry rapidly and thoroughly.

4. FABRIC PROTECTORS: As per manufacture's recommendations. Do not use on wool. Vacuum carpet thoroughly prior to cleaning. Test fabric for colorfastness. Remove gross filth or heavy soil. Apply ready-to-use product using a sprayer using a coarse spray tip, before and after cleaning and extraction.

Dilution Test method on hard inanimate surfaces modified in the presence of 5% organic serum and a 10-minute contact time against the following organisms:

2. Type 1 virus, Human Coronavirus, Respiratory syncytial virus, Vaccinia virus. This product was evaluated and found to be effective with a 10-minute contact time against the following organisms:

1. Aspergillus niger
2. Candida albicans
3. Trichophyton mentagrophytes
4. Staphylococcus epidermidis
5. Staphylococcus aureus
6. Community Acquired Methicillin Resistant Staphylococcus aureus
7. Salmonella schottmuelleri
8. Salmonella typhi
9. Serratia marcescens
10. Shigella dysenteriae
11. Shigella flexneri
12. Shigella sonnei
13. Antibiotic resistant, E. coli O157
14. Antibiotic resistant, E. coli O157
15. Enterobacter cloacae
16. Enterococcus faecalis

This product delivers cleaning and germicidal activity on a variety of non-porous materials. Carrion cultures, carpet, ceiling tiles, curtain, drapes, thread, foam, and frame lumber. The product can be applied in the following porous and non-porous materials: carpets, carpet cushion, upholstery, drapes, foam, thread, foam and frame lumber. Careful surface area evaluation is necessary to determine the materials to be treated. Follow directions as outlined in the Mold Damage Restoration section. Select affected materials with enough product to remain wet for at least 10 minutes. Use proper ventilation.

DIRECTIONS FOR USE:

1. Note: With spray applications cover or remove all food products. Replace product if it becomes visibly dirty. With mechanical spray device.

2. Pre-clean heavily soiled areas. Use ready-to-use solution to hard, non-porous environmental surfaces using a sponge, brush, cloth, mop or spray. Use enough product to remain wet for at least 10 minutes. Use proper ventilation.

3. Mechanical spray device.

4. Wipe surfaces and bases while drying. Do not over wet. If applied to stain resistant nylon carpet, apply a fabric protector according to the manufacturer’s recommendations. Do not use on wool. Vacuum carpet thoroughly prior to cleaning. Test fabric for colorfastness. Do not mix this product with oxidizers, anionic soaps and detergents.

5. SPECIAL INSTRUCTIONS FOR CLEANING CARPET AGAINST ODOR CAUSED BY BACTERIA: Follow with a thorough extraction. Dry rapidly and thoroughly.

6. FABRIC PROTECTORS: As per manufacture’s recommendations. Do not use on wool. Vacuum carpet thoroughly prior to cleaning. Test fabric for colorfastness. Remove gross filth or heavy soil. Apply ready-to-use product using a sprayer using a coarse spray tip, before and after cleaning and extraction.

CONTAINER HANDLING DISPOSAL:

1. Non-refillable container. Do not reuse this container to hold materials other than this product. Store in a cool, dry, and well-ventilated area away from food and feed. The container is a valuable material recovery item and should be recycled or properly disposed of. Do not contaminate water, food, or feed by storage and disposal.

2. Pesticide-related materials in the container. Contact your state regulatory agency to determine allowable practices in your area.

3. Do not contaminate water, food, or feed by storage and disposal.

4. Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or container may result in severe injury or death. Do not contaminate water, food, or feed by storage and disposal.

5. Open dumping is prohibited. Store only in original container. Do not reuse empty container. If a leaky container must be contained within another, mark the outer container to identify the contents. Store pesticides securely. Do not mix with food, feed, or other substances.

6. Pesticide Storage:

7. Do not mix with oxidizers, anionic soaps and detergents.

8. Thoroughly with soap and water after handling and before eating, drinking, using or touching any food or food-storing or food-serving articles.

9. IF SWALLOWED: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes. Place 2 drops of vegetable oil in the affected eye. After the first 5 minutes, place 2 drops of vegetable oil in the affected eye, followed by 1 drop of 0.5% naphazoline hydrochloride. Have the product container or label with you when calling a poison control center or doctor immediately. Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by poison control center or doctor. Do not give anything by mouth if choking or gagging.

10. IF IN EYES: Rinse with large amounts of water for 15 minutes. Have the product container or label with you when calling a poison control center or doctor immediately. Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by poison control center or doctor. Do not give anything by mouth if choking or gagging.

11. IF INHALED: Move person to fresh air; if not breathing, give artificial respiration. If breathing has not started in 5 minutes or if chest movements are not observed, give mouth-to-mouth breathing. If chest movements and breathing have not started in 5 minutes, have person taken to hospital or call emergency number.

12. IF SKIN OR CLOTHING CONTAMINATED: Wash with soap and water. Remove contaminated clothing and wash immediately before reuse. Have person shower or bathe. If on the skin and clothing, wash clothing before reuse. If clothing is not removed, it is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, they are hazardous wastes.

13. IF SWALLOWED:

14. Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by poison control center or doctor. Do not give anything by mouth if choking or gagging.

15. IF IN EYES: Rinse with large amounts of water for 15 minutes. Have the product container or label with you when calling a poison control center or doctor immediately. Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by poison control center or doctor. Do not give anything by mouth if choking or gagging.

16. IF INHALED: Move person to fresh air; if not breathing, give artificial respiration. If breathing has not started in 5 minutes or if chest movements are not observed, give mouth-to-mouth breathing. If chest movements and breathing have not started in 5 minutes, have person taken to hospital or call emergency number.
